- A comprehensive benefits package including a retirement savings plan

About Coeur Mining:

Coeur Mining is a growing, all-North American precious metals producer with seven operations: the Las Chispas silver-gold mine and Palmarejo gold-silver complex in Mexico, the Rochester silver-gold mine in Nevada, the Kensington gold mine in Alaska, the Wharf gold mine in South Dakota, the Rainy River gold mine in Ontario, Canada, and the New Afton copper-gold mine in British Columbia, Canada. In addition, Coeur owns the Silvertip silver-zinc-lead exploration project in British Columbia.

Coeur offers a flexible, hybrid work model and a culture built on safety, collaboration, and real opportunities to develop your career for those who want to grow alongside a company that is doing the same.

Rainy River

Situated in beautiful northwestern Ontario, 65 km northwest of Fort Frances, the Rainy River mine is an open pit and underground, gold and silver producing, residential mine site.

The Rainy River mine, located adjacent to the Ontario/Minnesota border is 65 kilometers northwest of Fort Frances, Ontario and is situated half way between Winnipeg, Manitoba and Thunder Bay, Ontario. The area is home to more than 130 species of birds and large populations of moose, black bear and deer. If you enjoy outdoor activities including hunting, fishing, winter sports and lake country then this is an area you will love to live and work in.

About the Role

Position: Underground Heavy Duty Mechanic

Schedule: 14/14 – 12 hour days/nights (6-6 daily)

Position Reports To: Underground Maintenance Supervisor

Role Summary

The role of the Heavy Duty Mechanic is to ensure the reliable and efficient operation of heavy mining equipment by performing maintenance, troubleshooting, and repairs as required. This position is responsible for diagnosing and addressing mechanical issues, ensuring all work is conducted safely and in accordance with industry standards and operational procedures.

Key Responsibilities

- **Equipment Maintenance:** Perform scheduled maintenance and inspections on underground heavy equipment to ensure optimal performance and compliance with safety standards.
- **Participate in safety meetings, job hazard assessments (JHAs), and underground emergency response procedures as required.**
- **Troubleshooting & Diagnostics:** Identify and diagnose mechanical issues in heavy equipment, using advanced diagnostic tools and techniques to pinpoint malfunctions and minimize downtime.
- **Repairs & Overhauls:** Conduct repairs and component overhauls on underground equipment, including engines, hydraulic systems, transmissions, and braking systems, ensuring all work is completed to manufacturer specifications.

- **Safety Compliance:** Adhere to all safety protocols and procedures while performing maintenance and repairs, ensuring a safe work environment for yourself and your team.
- **Documentation & Reporting:** Maintain accurate records of all maintenance, repairs, and inspections performed. Complete detailed reports on equipment status, repairs conducted, and parts used.
- **Operational Efficiency:** Collaborate with the operations and maintenance teams to ensure minimal disruption to production schedules by performing timely and efficient repairs.
- **Use of Tools & Equipment:** Safely operate and maintain a variety of hand tools, power tools, and diagnostic equipment required for the repair and maintenance of heavy underground machinery.

Qualifications

- Journeyperson Red Seal Mechanic.
- Underground experience is an asset.
- SAP or similar CMMS experience is an asset.
- Microsoft Office program operation and application skills.
- Caterpillar and Maclean experience is an asset.
- Sandvik drill experience is an asset.
- Ability to identify, analyze and resolve problems.
- Ability to work safely and effectively in a team environment as well as independently.
- Excellent safety record with a demonstrated commitment to safe work practices.
- Good communication and interpersonal skills.
- Strong troubleshooting and problem-solving skills.
- Ability to work safely and effectively in confined spaces and underground environments.
- Physical ability to work underground for extended shifts, including climbing, lifting, bending, and working in challenging conditions.

The anticipated salary for this position will be between \$130,000 to 135,000.

**Note: this employment opportunity is based on an actual current vacancy, not just for future consideration.*

Why New Gold?

- Highly competitive base salary, compensation programs and a quarterly incentive program.
- Extended Health & Dental Benefit Short-term and long-term disability insurance benefit.
- Defined match contribution to group registered retirement savings account.
- Camp & Travel Allowance provided depending on residence.
- Travel provided locally due to work schedule being outside regular bus schedule from area residences.

We thank all applicants for their interest but will only contact candidates selected to advance in the hiring process. Coeur Mining does not accept resumes from employment placement agencies, head-hunters or recruitment suppliers that are not in a formal contractual arrangement with the Company. Any resume or other information received from a supplier not approved by Coeur Mining will be considered unsolicited and will not be considered.

Inclusion, Equal Opportunity, Accessibility

Coeur Mining is an equal opportunity employer committed to diversity and inclusion. We are pleased to consider all qualified applicants for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veterans' status, Indigenous status or any other legally protected factors. Disability-related accommodations during the recruitment process are available upon request.
