- A culture of collaboration and inclusion
- Inspiring colleagues and approachable leaders
- Career development opportunities
- A deeply rooted commitment to responsible mining, health and safety and community engagement
- A competitive total compensation program
- A comprehensive benefits package including a retirement savings plan

About Coeur Mining:

Coeur Mining is a growing, all-North American precious metals producer with seven operations: the Las Chispas silver-gold mine and Palmarejo gold-silver complex in Mexico, the Rochester silver-gold mine in Nevada, the Kensington gold mine in Alaska, the Wharf gold mine in South Dakota, the Rainy River gold mine in Ontario, Canada, and the New Afton copper-gold mine in British Columbia, Canada. In addition, Coeur owns the Silvertip silver-zinc-lead exploration project in British Columbia.

Coeur offers a flexible, hybrid work model and a culture built on safety, collaboration, and real opportunities to develop your career for those who want to grow alongside a company that is doing the same.

Rainy River

Situated in beautiful northwestern Ontario, 65 km northwest of Fort Frances, the Rainy River mine is an open pit and underground, gold and silver producing, residential mine site.

The Rainy River mine, located adjacent to the Ontario/Minnesota border is 65 kilometers northwest of Fort Frances, Ontario and is situated half way between Winnipeg, Manitoba and Thunder Bay, Ontario. The area is home to more than 130 species of birds and large populations of moose, black bear and deer. If you enjoy outdoor activities including hunting, fishing, winter sports and lake country then this is an area you will love to live and work in.

Applicants who reside in Northwestern Ontario and have experience working in a cross-cultural environment, coupled with knowledge of the unique challenges and opportunities presented to those living in the Northwest Ontario, are assets. Hiring priority will be given to qualified applicants who are beneficiaries of the Impact Benefits Agreement (IBA) and to qualified applicants residing in the Northwest Ontario communities. (Indigenous) Members must clearly identify their status on the online job application and resume if they wish to receive priority consideration.

About The Role

Schedule: 14/14

Position Reports To: Open Pit Chief Geologist

Position Overview:

Reporting to the Open Pit Chief Geologist and Senior Geologist, the incumbent is responsible for participating in grade control activities related to the examination of geological data and processes, and to ensure operating guidelines are followed. This will include participation in daily Grade Control activities and assisting the RC drilling program when required. They will provide direct supervision for non-technical staff and will be responsible to ensure the team is focused completing the priority tasks while working in a safe manner and to the expected standard.

Key Responsibilities

- Ensure all work performed by the team is compliant with Rainy River Health & Safety policies
- Work in conjunction with Senior Open Pit Geologist to ensure the achievement of departmental and operational goals.
- Provide direct supervision to non-technical staff responsible for the collection of Blast Hole and RC drilling samples, the delivery of samples to onsite lab, the demarcation of ore boundaries in the field and all other activities as they arise.
- Participate in the coaching, mentorship, and evaluation of non-technical staff
- Ensure the QAQC protocols are in place and followed by the sampling team
- Assist with determination of ore waste boundaries and provide guidance to Operations on ore handling and dilution control
- Work in collaboration with the Engineering team to determine ore allocation priorities and provide guidance to the operation team
- Lineup daily RC drilling activities when required
- Geological data collection and interpretation including pit mapping and maintaining site structural model
- Assist in reconcile mine with mill data, and mine with reserve and resource data
- Daily, Weekly, Monthly reporting
- Managing database integrity and review data for production and reconciliation purposes
- Contribute to the development of policies and procedures
- Assist in all aspects of production and in other key areas of the mine as required

Qualifications

- 4 Year University geology program
- Registered or able to register as a P. Geo in Ontario, Canada
- Minimum of 1 years of experience in Open pit mining
- Valid Driver's license
- Strong interdepartmental communication skills
- Able to change and re-prioritize tasks as new information is gathered
- Strong ability to self-learn
- Able to work independently or within groups
- Strong computer skills
- Experience with Reverse Circulation drilling is an asset
- Experience in mentoring and training others is an asset

Compensation

The anticipated salary range for this position will be between \$85,000.00 - \$91,000.00.

Why Coeur?

- Highly competitive base salary, and a quarterly incentive program
- Extended Health & Dental Benefit
- Short-term and long-term disability insurance benefit
- Defined match contribution to group registered retirement savings account
- Flights & Camp provided

We thank all applicants for their interest but will only contact candidates selected to advance in the hiring process. Coeur Mining does not accept resumes from employment placement agencies, head-hunters or recruitment suppliers that are not in a formal contractual arrangement with the Company. Any resume or other information received from a supplier not approved by Coeur Mining will be considered unsolicited and will not be considered.

Inclusion, Equal Opportunity, Accessibility

Coeur Mining is an equal opportunity employer committed to diversity and inclusion. We are pleased to consider all qualified applicants for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veterans' status, Indigenous status or any other legally protected factors. Disability-related accommodations during the recruitment process are available upon request.
